

Testimonials

“Melissa is the person you want to care for your furry family member. She has been a dog lover for as long as I have known her over 9 years now. She has personally cared for my two pups' multiple times. Her home is loving, warm, and so full of energy (both human and pet). She goes "above and beyond" to educate herself on the different breeds and how to best meet their needs. Being a pet lover and advocate comes naturally for her. She has instilled the same love, respect, responsibilities and values with her family members who all appreciate animals. Did I mention she goes, "above and beyond?!!!" I can't wait to help launch her new business Wags to Riches by sharing her menu of services and availability to all my family, friends and clients.”

Arlo, Hope & Huk's mom

“We were able to enjoy our family vacation knowing that Melissa was caring for our family dog. She kept Hazel when she was a couple months old and cared for her just like her own dogs. Leaving our pets behind is hard. Melissa will give you peace of mind with the wonderful care she provides animals.”

- Kelly M.
Hazel's mom

“Melissa is a true animal lover and treats my fur baby like her own. My dog has separation anxiety and Melissa is the only person I feel comfortable leaving him with when I have to travel for work.”
